## LOCATION

The property is situated in Brockley near Backwell which perfectly balances the connectivity of the M5 corridor with the strategic advantages of being within easy reach of Bristol. Situated just 9 miles southwest of Bristol City Centre, this location is an established hub for businesses seeking high-accessibility without the congestion of the inner-city. It is close to major arterial routes and international transport hubs and is immediately adjacent to the A370, providing a direct, high-capacity link between Bristol and Weston-super-Mare. Junction 20 (Clevedon) and Junction 21 (Weston) of the M5 are both within a 15-minute drive, offering seamless distribution routes to the Midlands, the South West, and the M4 corridor. Bristol Airport is located just 10 minutes away, the airport provides vital international connectivity for businesses with global clients or frequent travel requirements. Yatton railway station (2 miles) sits on the main line to London Paddington and Bristol Temple Meads, making the location highly accessible for commuting staff and rail-freight logistics.

## DESCRIPTION

The property is a detached warehouse building with ancillary offices situated on a well landscaped plot of approximately 0.90 acres and benefitting from a large tarmac yard area, visitor and staff parking areas, a small pond, outside seating area and detached building providing meeting space set within the landscaped grounds.

The main property itself is of steel portal frame construction with blockwork and sheet profile clad elevations and a metal profile sheet clad pitched roof. The office accommodation to the front elevation of the property is of redbrick and sheet profile clad elevations and a partially glazed front elevation forming the main building entrance. The office accommodation provides a mixture of open plan and cellular offices with timber framed double glazed windows, solid ceilings, carpeted floors, strip lighting and wet central heating system, male and female WC's, kitchenette and shower.

The warehouse accommodation provides clear span space with two up and over roller shutter doors and pedestrian access doors from the side elevation of the property. The warehouses are lit by suspended strip lighting and have solid concrete floors. The property is fitted with large roof mounted solar panels providing power, a heat recovery system and biomass boiler and benefits from its own bore hole for water supply. The property benefits from a 3 phase power supply, fire alarm system, intruder alarm and CCTV. In the parking area to the front of the property there is a solar powered electric car charging station for two vehicles and there is a bike store to the side elevation of the property. The property itself sits in landscaped grounds with a large yard laid to tarmac, providing heavy goods vehicle access to the warehouse's side elevation and approximately 12 parking spaces for staff. This is accessed via a tarmac driveway from the entrance of the site from which a separate area providing approximately 14 visitor and staff parking spaces can be accessed to the front of the property.

There is also a landscaped area providing an outside seating area, large pond and detached wood frame building providing additional meeting space which benefits from its own solar powered electricity and is linked to the property's broadband internet connection.
